

Salvant & Associates, Inc. is a South Florida based service company that has been at the forefront of the Information Technology Industry, providing network and computing solutions to small and mid-sized business for over 15 years with a combined staff experienced of over 35 years.

Our Mission is to empower our client's businesses by staying abreast of the continuous changes in technology, and advising them on how to use these technological developments creatively and effectively to help increase sales, efficiency and effectiveness while reducing costs, and improve internal and external communications by offering the latest solutions in:

**Data Protection & Security**, protects your company's vital information against common and complex threats such as viruses, hacker attacks and hardware problems. Including secure data hosting and back up.

**Docu-Management Solutions**, the **Green Efficiency that pays off!!™** record migration from paper to electronic format and software document management.

**Network Support and Maintenance**, conventional support and maintenance taken a step further with a worry free guarantee from **SNATEK**. Technical support, hardware and software upgrades, maintenance etc...

**Project Consultation Management**, a **SNATEK** professional can empower your business and tailor a customized IT solution to your needs that will exceed your expectations. We consult on and manage a broad range of projects including remote team collaboration.

**MSP / Remote Managed IT Services**, Let us monitor and manage your network remotely using breakthrough technology. Your systems can be monitored and supported seamlessly.

**SNA-HIT**, Specialized Healthcare IT solutions that modernize the physician's practice using cutting edge technology and electronic medical records, increase physician efficiency and reduce costs, as well as promote standardization of care. All while benefiting from financial incentives from the American Recovery Act Stimulus package.

**Web designs and services**, introducing your business to the e-world using the latest trends in designs, web 3.0 technologies, webconferencing services, and sharepoint sites. We also host and manage domains. Full e-services for today's e-commerce business.
